

BELGRAVIA EPSILON FI, R

INVESTMENT POLICY

Belgravia Epsilon FI invests in European equities. The investment objectives are to achieve positive returns and a Sharpe ratio higher than the Stoxx 600 with a volatility of returns lower than the Stoxx 600. The Fund varies its equity exposure at its discretion, investing the balance in money market instruments.

Lower risk

Higher risk

Potentially lower reward

Potentially higher reward

This current risk profile is based on historical data and may not be a reliable indication of the future risk profile of the fund. The risk category shown is not guaranteed and may shift over time. Why is this fund in this category? The portfolio of this Sub-Fund consists essentially of equities or equity related securities, cash and Money Market Instruments dealt in on a Regulated Market in an OECD member country, mainly Europe. By exploiting the low correlations between these asset classes and applying a proper management of the risk contributions of each asset class, the Sub-Fund will present a risk/reward profile corresponding to a Medium risk category on the risk/reward scale.

Past performance is not guarantee of future results. Prices can go up and down. The value of the shares of the fund and the income accruing to them may fall or rise. The current prospectus and the KID are available at www.CNMV.es. This document is for information purpose only and does not have regard to the specific investment objectives, financial situation and particular needs of the person who may receive it. (Singular Bank does not assume any type of responsibility for the use of this information)
